COOLUXE Mini

THE
QUIETEST,
COOLEST IN
ITS CLASS!

The working principle of Cooluxe Mini is based on the evaporative cooling system. With its simple design and stylish appearance, it is the most suitable solution for cooling offices and homes. It provides easy use thanks to its touch screen. Thanks to the timer feature, it is turned off at any time you want. Cooluxe Mini, which has easy access to the water filling tank, can be easily moved to the desired area thanks to its wheels.

Technical Specifications

Motor Power	110 W	Weight	11.5 kg
Voltage	220 V	Cooling Area	30 m ²
Air Flow rate	2500 m ³ /h	Water Tank Capacity	42 L
Fan Speed	4 Stages	Noise	56 Decibel
Current (Amp)	0.5 A	Product Dimensions	430x340x970 mm

AREAS OF USE

- Houses
- Offices
- Office Style Spaces

Nature Friendly

It does not emit harmful gases to the environment and does not dry the air while cooling, thus providing high indoor air quality.

Fresh Air and Comfort

Since the air inside constantly recirculates, it provides natural cooling.

Low Operating Cost

It consumes 80% less energy than conventional gas air-conditioners.
