COOLEVO

THE PEAK OF PORTABLE COOLNESS!

Coolevo's working principle is based on the evaporative cooling system. Using the principle of natural evaporation, unlike conventional air conditioners, it does not release harmful chlorofluorocarbon emissions or other greenhouse gases into the air. It provides healthy and cold air while being suitable for use in open areas. The fresh air coming out of the cooler is extremely beneficial for the general health of the respiratory systems of humans and other living creatures. Thanks to the timer feature, it is turned off at any time you want.

Technical Specifications			
Motor Power	350 W	Weight	37 kg
Voltage	220 V	Cooling Area	80 m ²
Air Flow rate	7000 m ³ /h	Water Tank Capacity	100 L
Fan Speed	3 Stages	Noise	60 Decibel
Current (Amp)	1.59 A	Product Dimensions	790x520x1350 mm

AREAS OF USE

- Cafes
- Houses
- Pool Sides
- Wedding Halls
- Boats
- Masjids
- Repair Shops
- Malls & Stores
- Waiting Rooms
- Gyms, Sport Halls

Nature Friendly

It does not emit harmful gases to the environment and does not dry the air while cooling, thus providing high indoor air quality.

Fresh Air and Comfort

Since the air inside constantly recirculates, it provides natural cooling.

Low Operating Cost

It consumes 80% less energy than conventional gas air-conditioners.
